NOTES

- This is dummy data, but it's shaped like real data.
- You don't need to solve every scenario. Pick where you'll have the greatest member impact.
- Personalization is the point. Same question, different member, different answer.
- When in doubt, guide, don't generate. Ground your responses in the content here.

The pattern

Every interaction should follow the same four beats. This is what separates a guided experience from a generic chatbot.

1 Interpret

Understand what the member is actually asking. Consider who they are and what they might need.

2 Answer

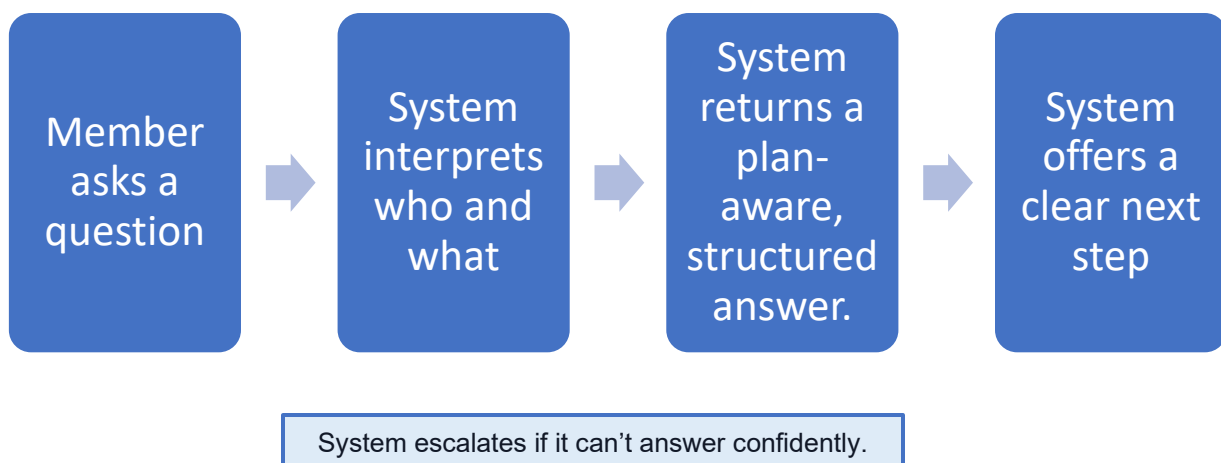

Return a clear, structured answer grounded in their specific plan and history. Not a paragraph.

3 Guide

Point to the next action they can take. A button, a link, a task.

4 Escalate

When you're unsure or out of scope, hand off with context. Don't guess.

Response examples in action

Three examples showing the pattern. These are illustrative, not prescriptive. Your format can be different.

Example 1: Am I due for new glasses?

Asked by Maria Lopez (Choice plan, used frame allowance July 2024).

Answer

Yes, you're due. Your frame allowance renewed on January 1, 2026, and you haven't used it yet this benefit period.

Plan details

VSP Choice plan · \$180 frame allowance · \$25 materials copay · Every calendar year

Next step

[\[Find a doctor near me \]](#) [\[See my full benefits \]](#)

Example 2: Where can I get an eye exam?

Asked by Sara Kim (Signature plan, parent, wants exam for son).

Answer

You have thousands of in-network options. On your Signature plan, that includes VSP private practice doctors, Visionworks, and Eyemart Express. Would you like to book for you or your son first?

Plan details

VSP Signature (Premier Edge network) · \$10 exam copay · Coverage renews every calendar year

Next step

[\[Find a doctor near me \]](#) [\[Book for son \]](#)

Example 3: Can I get glasses if I already used contacts?

Asked by Priya Patel (Signature plan, chose contacts in February).

Answer

You used your contact lens benefit in February, which is in lieu of glasses. That means your frame and lens benefit isn't available again until your next benefit period starts in January 2027. Good news: you can still buy glasses at a discount today as a VSP member.

Plan details

VSP Signature · Contact allowance used Feb 2026 · 20% VSP member discount on additional eyewear from a network doctor

Next step

[\[See VSP member discounts \]](#) [\[Shop on Eyeconic \]](#)

Example 4: Is Dr. Torres in my network?

Asked by James Ochoa (Advantage plan, new member).

Answer

Yes, Dr. Rachel Torres is in your network. She's at 225 N Michigan Ave, about 0.4 miles from you, with availability Tuesday. Would you like to book?

Plan details

VSP Advantage · Dt. Torres accepts Advantage · \$20 exam copay · Coverage renews every calendar year

Next step

[\[Book with Dr. Torres \]](#) [\[See other in-network options \]](#)

Example 5: Can I go to Warby Parker?

Asked by Sara Kim (Signature plan, parent).

Answer

Warby Parker isn't in the VSP network, so your plan won't cover the visit directly. You can still go and submit for out-of-network reimbursement or use your benefits at an in-network location like Visionworks or Dr. Torres nearby.

Plan details

VSP Signature · Out-of-network exam reimbursement: up to \$50 · You'd pay the difference · In-network options fully covered after copay

Next step

[\[Find an in-network location \]](#) [\[How to submit out-of-network reimbursement \]](#)

COMMON FEATURES ACROSS ALL FOUR PLANS

- WellVision Exam every calendar year. Focus on eye and overall wellness.
- Essential Medical Eye Care available as needed (\$20 per exam).
- Prescription glasses coverage: frame + lenses, with copay per plan.
- Contacts in lieu of glasses (one or the other per benefit period).
- VSP EasyOptions: member can pick one upgrade (extra frame allowance, premium/custom progressives, light-reactive, anti-glare, or extra contact allowance).
- VSP LightCare: allowance for ready-made non-prescription sunglasses or blue light glasses, instead of Rx glasses or contacts.
- 20% off additional eyewear from a VSP provider within 12 months of last exam.
- 15% off Laser Vision Correction at contracted facilities.

About individual plans (IP).

Individual plans use the same benefit structure, but the members pay their own monthly premium (autopay by default). Billing questions are only relevant to IP members. For David’s profile: premium \$34.78/month, autopay on the 15th, last successful payment Sep 15, 2026.

Sample provider directory

A mock directory to answer find-a-doctor questions. All addresses are fictional but shaped like the real thing.

Sample claims

Mock claim history for the members who have it.

Member	Date	Provider	Service	Plan paid	You paid	Status
Maria Lopez	Jul 12, 2024	Dr. Marcus Reed, OD	WellVision Exam + frames + lenses	\$338	\$74	Processed
Priya Patel	Feb 8, 2026	Dr. Rachel Torres, OD	WellVision Exam + contact lens fitting + contacts	\$285	\$100	Processed
Robert Nguyen	Jan 6, 2026	Dr. Ellen Whitfield, OD	WellVision Exam + retinal imaging (diabetes)	\$253	\$15	Processed
	Apr 2, 2026	Dr. Ellen Whitfield, OD	Essential Medical Eye Care exam (dry eye)	\$165	\$20	Pending
David Chen	Jun 15, 2026	Out-of-network provider	WellVision Exam	\$45	\$165	Processed (OON reimbursement)

REIMBURSEMENT NOTES

- Out-of-network exam reimbursement is capped by plan (see Section 05). David's \$210 exam paid out at \$45 because his plan caps OON exam at \$45.
- Members submit an itemized receipt to be reimbursed. In the prototype, treat this as a documented but out-of-flow step (you don't need to build the form).
- Reimbursement typically processes in 30 days. "Pending" claims older than 30 days are a reason to escalate.

Escalation and tone

When to escalate

The prototype to know when to hand off, not just how to answer. Every escalation should pass context so the member doesn't start over.

- **Low confidence** · The system isn't sure it understood, or the answer might be wrong.
- **Out of scope, repeated** · You redirected once. The member kept asking off-topic. Don't loop.
- **Explicit complaint or appeal** · "I want to file a complaint" or "I want to appeal." Hand off.
- **Medical necessity** · Questions about specific conditions or coverage exceptions.
- **Sensitive moments** · Sentiment cues that suggest frustration, distress, or urgency.
- **Member requests a human** · "Let me talk to someone." Always honor this.

Tone

Members are people, not tickets. Aim for warm, plainspoken, quietly confident. Adapt when the moment calls for it.

Do

- Be simple. Even when what you're explaining isn't.
- Be useful. Speak to the specific member.
- Be clear. Answer first, details on demand.
- Be expressive. Warmth is a feature.

Don't

- Hand back policy text.
- Use jargon like "in lieu of" without context.
- Re-ask for info the member already gave.
- Pretend to know things you don't.

We're rooting for you.

If you need more content, examples, or context for a specific scenario, reach out on Teams.
